16 DEC - 22 DEC

PRIVATE PILOT GROUND SCHOOL

Awesome news! Great Basin Aviation will be conducting an in-person Private Pilot Ground School course based on the Cessna/King School curriculum.

CFI Derek Davis will be teaching this 6-week course (7 weeks total due to a week break in the middle) starting on Tuesday, January 2nd, every Tuesday, and Thursday night from 6pm-9pm. Last class is February 2/15. All classes will be held at Atlantic Aviation.

Cost for class is \$500. This includes instruction, King School kit (includes ground school, E6B, and logbook). If you already have the kit, cost is reduced. Please contact the office for more information. Classes will be limited to 10 students so please let us know right away if you would like a spot.

Please contact the office at goflying@greatbasinaviation.com or call between 8am-4pm, 775-856-3655.

REMINDERS FOR THE UPCOMING WEEK

- With the Holidays approaching, there will no more student pilot Monday Night Study Groups for the rest of 2023. Class will start up again on Monday, January 8th.

MICHAEL BOWLING – SOLO

Rev up the applause for our speed demon turned aviator, Michael Bowling! This motorcycle racer hit the brakes on the racetrack and took flight solo at KSPZ, runway 06, maneuvering the magnificent N328ME through the open skies. The thrill of independence in the cockpit is a momentous milestone for any aviator, and Michael has etched his name in the skies of accomplishment. His infectious joy and passion for aviation are felt throughout the office, earning him the prestigious title of Pilot of the Month. Balancing the demands of impressing the GBA staff and CFIs while navigating high school showcases Michael's dedication and multitasking prowess. A special shoutout to the Bowling family, whose unwavering support has been the wind beneath Michael's wings. His mom, in particular, gets a front-row seat to his flying prowess with a legal altitude "flyover" treat at her work, UNR. It's a heartwarming display of family support and shared enthusiasm for Michael's aviation adventures. Let's give a resounding round of applause to both Michael and his outstanding CFI, Nik Joshi, for turning dreams into wings! The sky's the limit, and we eagerly anticipate witnessing the next chapters of his aviation journey.
