## GETTING BACK IN THE LEFT SEAT, WITHOUT THE GUESSWORK

If it's been a while since you last flew, you're not alone, and you're not behind. Life happens, flying pauses, and then one day you realize you're ready to get back in the air... you just don't want to feel rusty doing it.

That's exactly why we put together our Rusty Pilot Refresher.

This isn't a lecture-heavy, textbook dump. It's a practical, real-world session focused on the things you actually use every time you fly. We'll walk through current regulations, airspace, airport operations, and radio communication in a way that makes sense, not just for passing a test, but for confidently stepping back into the cockpit.

Whether you've been out of flying for a few months or a few years, this session is designed to bridge the gap between where you are now and working productively with a CFI again. It's also structured to meet the ground portion requirement of a flight review, so you're not just brushing up, you're making real progress.

Most importantly, this is about rebuilding confidence. Not the "I think I remember this" kind, but the "I know what I'm doing again" kind.

Location: Atlantic Aviation, 655 S Rock Blvd

Date: Sunday, April 19

Time: 10:00 AM – 1:00 PM

Cost: \$75

**To reserve your spot, contact Josh Gilmore, CFI**

# RUSTY PILOT REFRESHER

Sunday April 19th, 2026

## READY TO GET BACK IN THE LEFT SEAT?

This Rusty Pilot Refresher presentation is designed to rebuild your confidence and sharpen the knowledge you need to fly safely again. We'll review key topics including current regulations, airspace structure, airport operations, and effective radio communication—focusing on the practical information every pilot uses on every flight. Whether you've been away for months or years, this session will help bridge the gap between where you are now and working productively with a CFI. This course will meet the requirements for the ground portion of a flight review.
